

The 5 most popular Artists in making 90's Music

We want to make an event for people who love "90's Music".

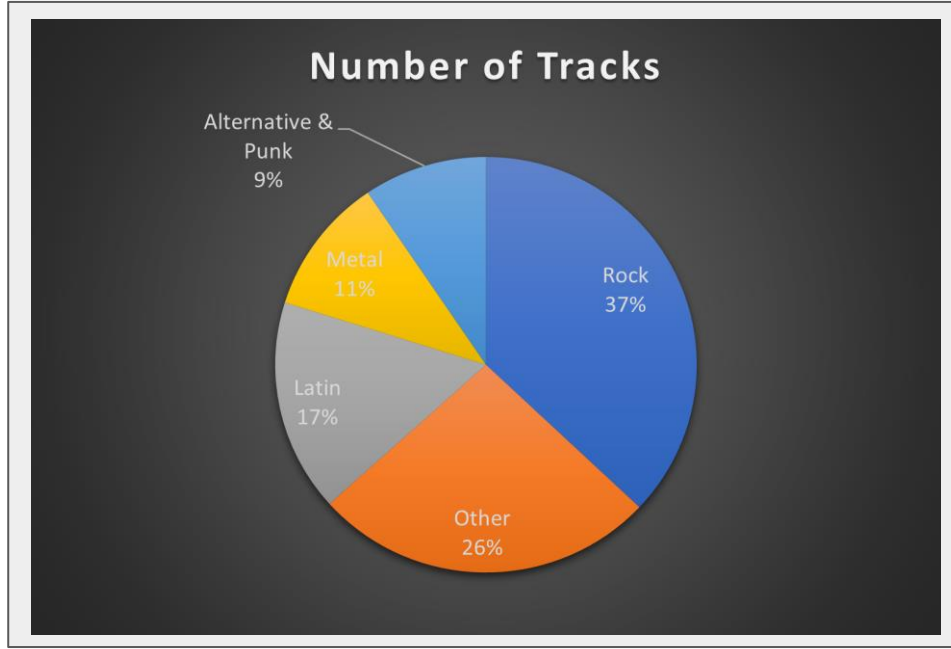

So, with that, we want the top Artists that have the most sales in 90's Music tracks along with their number of tracks.

The scale of the Jazz Genre over the years

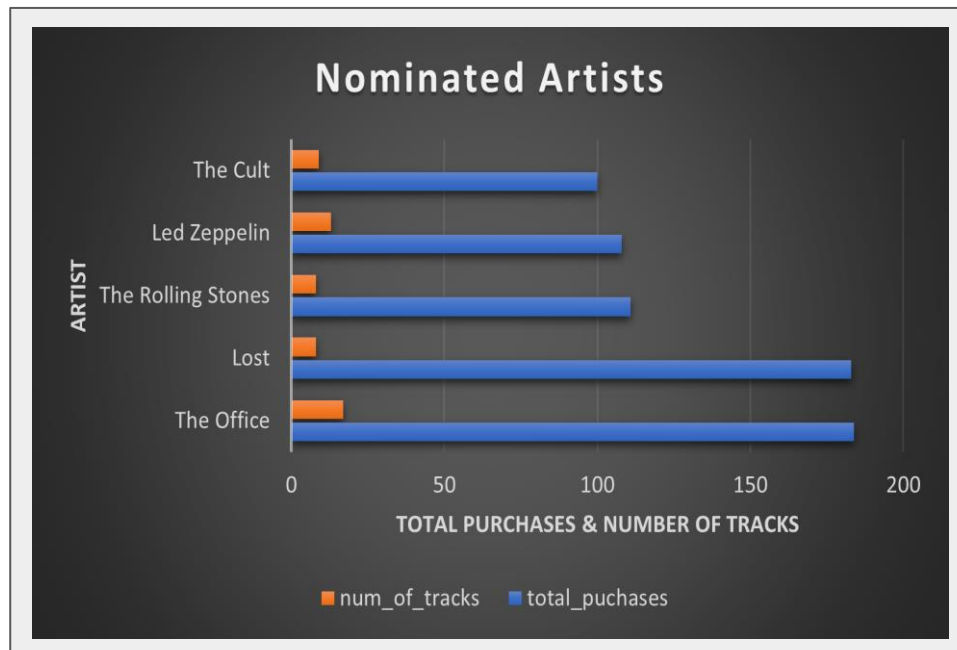

We want to know how popular the “Jazz” Genre over the years, so that can help us to estimate how much copies we need to offer in the store in order to avoid loss.

The **Percentage** of each Genre tracks over the average

We want to classify each Genre percentage according to their number of tracks, but, if the number of tracks is less than the average number of tracks per Genre, classify it as 'other', otherwise, name it as it should be.

The Nominated Artists for an event in the **most** Profitable Country

We also to make a special event to our most profitable country.

So, we searched for the top 5 artists that is the most popular in this country BUT, in condition they are not nominated to our "90's Music" event that we intend to make.
